NAIS500 New Software Available

Product:	000-13609-001, 000-13963-001 000-13610-001
Product Description:	NAIS500 class B AIS
Software Version:	V1.2.8.01
Effective Date:	22 Feb 2018
Inspect/Update Current Inventory:	YES

New software is now available for the NAIS-500 Class B AIS transceiver. The update (version v1.2.8.01) facilitates the following improvements and feature changes to the system:

- Correction of heading data transmission
- Correction of year-value in the ETA parameter in PGN 129794
- Correction of the ship-dimension-value in PGN 129040, 129794 & 129810.

The software is available from any of the Navico® Brand websites:

Simrad®

<http://downloads.simrad-yachting.com/>

B&G®

https://ww2.bandg.com/support/software/bg_software/

Lowrance®

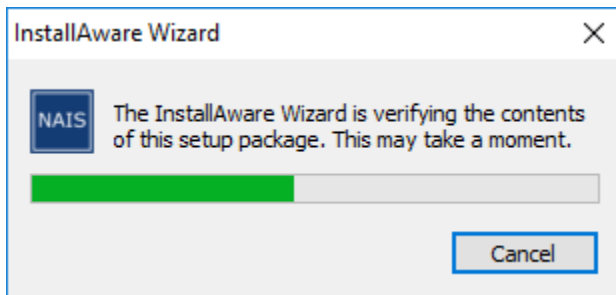

<https://downloads.lowrance.com/>.

You will need to install the software update program first, and then launch the updater for the NAIS-500. Please see the steps below demonstrating the proper procedure.

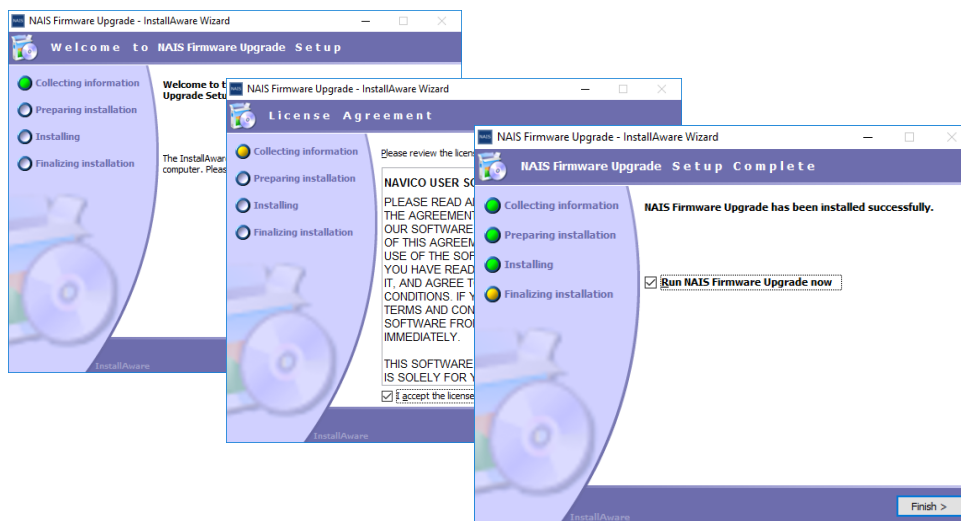

1. Open the upgrade application.

Name	Date modified	Type	Size
 NAIS_FirmwareUpgradeSetup.exe	31/01/2018 6:27 PM	Application	12,629 KB

2. It will start the install process.

3. Follow the onscreen prompts to complete the installation.

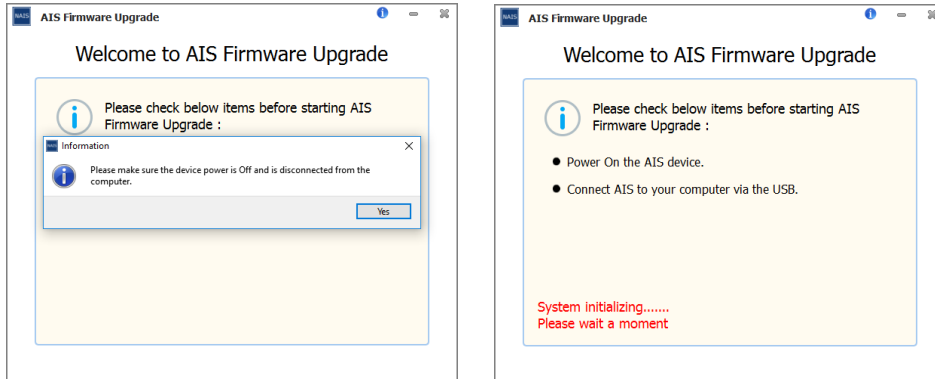

When the installation completes you can launch the updater. Follow the next step to upgrade the NAIS-500.

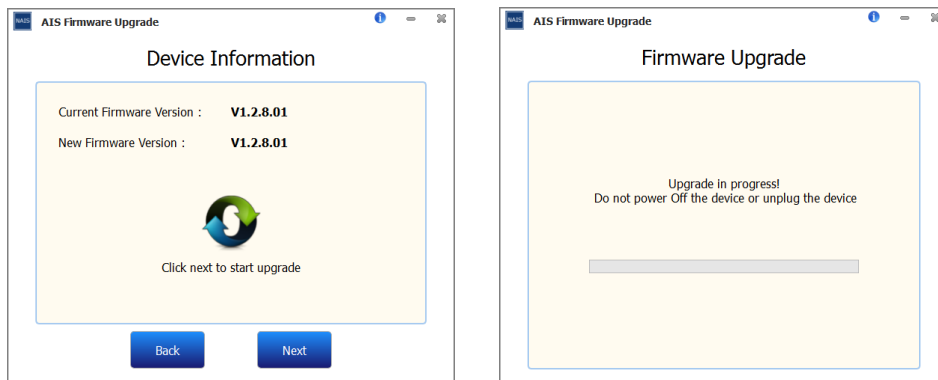

Upgrading NAIS-500

Follow the onscreen prompts to complete the upgrade.

1. Start the upgrade program with the NAIS-500 disconnected; and then connect the NAIS-500 to a powered USB connection on the computer.

2. Confirm the version and select Next to continue to upgrade.

3. When the upgrade is complete, power off the NAIS-500 and restart. This completes the upgrade.
