Software Version:	StructureScan3D-1.5-56.1.142-Standard-1.rlw Sonar_Hub-5.0-56.1.142-Standard-1.rlw
Effective Date:	7 February 2017
Inspect/Update Current Inventory:	Yes

We are pleased to announce that new software has been released for the SonarHub™ and StructureScan® 3D modules. This release incorporates an important improvement.

The software can be downloaded from the SonarHub or StructureScan 3D downloads page on the Simrad, Lowrance and B&G (SonarHub only) websites.

Fixes and Improvements

Multi-network sonar support: Any connected SonarHub or StructureScan 3D modules are required to be updated with this software to match the new 56.1.142 software (or greater) on Simrad, B&G or Lowrance multifunction displays. This will enable multiple network sonar sources to be viewed on the network at the same time.
