Subject: Change to supplied bezel color on Ray60 and Ray70 VHF Radios

Dear Raymarine Partners,

Beginning in January 2017 we will be making changes to the color of the included trim bezels on the Ray60 and Ray70 VHF radios. Raymarine will supply only a black bezel, and the gunmetal bezel will be available as an optional accessory.

We are making this change so the VHF line as-provided, better matches with the rest of the Raymarine product line.

New Ray60 and Ray70 models with the changed bezel will be signified by a black dot decal affixed near the bar code/serial number label on the gift box.

The following table summarizes the status of bezels and bezel accessories for all VHF radios, effective January 2017:

Part Number	Radio Model	Description of Change
E70243	Ray50 VHF	No change. The included bezel is black, and is fixed to the VHF housing.
E70345	Ray52 VHF with GPS	No change. The included bezel is black, and is fixed to the VHF housing.
E70245	Ray60 VHF	Supplied bezel will change from gunmetal to black
E70251	Ray70 VHF with AIS	Supplied bezel will change from gunmetal to black.
R70435	Gunmetal Bezel Kit	Matches Ray60 or Ray70 Radios to a-Series, e-Series, i50, i60 and i70.

If you have any questions, please do not hesitate to contact your Raymarine Regional Sales Manager or Country Manager.
