

No. 721 / January 29, 2020

Preloaded C-MAP Contour+ Mapping Enhanced with More 1-Foot Contour Lake Coverage; Rebate Starts February 1

We are pleased to announce a second release of C-MAP Contour+ preloaded mapping for HDS LIVE fishfinder/chartplotters.

The new, enhanced Contour+ charts includes a larger coverage area, a significant increase in lakes with 1-foot contours – 15,000+ US Lakes and 9,400 Canadian lakes, along with other refinements.

Previously launched in June 2020 as a significantly improved, preloaded mapping solution for HDS LIVE displays, C-MAP Contour+ -- now with even more charting data and a larger file size -- will not be available via a downloadable software upgrade. However, a chart card will be offered for registered HDS LIVE customers at a nominal \$35 fee starting February 1 and continuing thru April 1, 2021 at <https://www.lowrance.com/offers/hds-mapping-upgrade/> (The link will not be live until the February 1 start date).

FREE C-MAP Contour+ Cards Available For Select HDS LIVE Purchases

Additionally, customers who purchase an HDS LIVE display between February 1 and April 1, 2021 will be eligible for a free enhanced C-MAP Contour+ card via online rebate. This card is designed to be used in the card slot of HDS LIVE displays, and cannot be used to update the HDS LIVE preloaded map. Digital rebate forms will be available online starting February 1, 2021 at <https://lowrance.4myrebate.com>.

When HDS LIVE displays with the enhanced preloaded C-MAP Contour+ charts start shipping, we will send a bulletin identifying by serial number the displays with the new preloaded charts.

For a complete list of lakes featuring 1-foot contour coverage in the enhanced C-MAP Contour+ preloaded charts, visit <https://www.lowrance.com/contour-plus-lake-list/>.
