

# Sales Bulletin

No. 722 / January 27, 2021

---

The Navico Recreational Marine Division (RMD) is pleased to announce its training schedule for spring 2021. This year, a series of webinar events will replace traditional classroom training. Below, you will find additional information concerning the dates and times. If you have any questions regarding training or certification, please email: [nola@navico.com](mailto:nola@navico.com).

## **Technical Training**

These webinars are targeted toward technical dealers that want to learn about Navico's more specialized products; however, anyone within your organization is welcome to attend. Please refer to the table below for more information.

Attendance is worth 25 points towards your certification status as a B&G or Simrad Certified Dealer. These points will be credited to your 2021-22 certification year. You must have existing access to the B&G and/or Simrad Certification courses in your NOLA profile to have these points allocated to your 2021-22 certification status. If you do not have access, you will not be eligible for the certification points.

Topic	Date	Time	Registration
<b><u>Naviop/Command</u></b> In this webinar, we will review the Navico digital switching system and discuss basic troubleshooting.	February 17	10.00-11.00 (EST)	<a href="#">Register Here</a>
