## Software update for S5100, SonarHub and StructureScan 3D

<b>Product:</b>	000-13260-001; 000-12395-001; 000-12397-001 000-11141-001; 000-11142-001
<b>Product Description:</b>	S5100 Sonar Module, Sonar Hub, Structure Scan 3D Module
<b>Software Version:</b>	S5100-1.5-57.1.219-Standard-1.riv; Sonar_Hub-6.0-57.1.219-Standard-1.riv; StructureScan3D-2.0-57.1.219-Standard-1.riv
<b>Effective Date:</b>	15 September 2017
<b>Inspect/Update Current Inventory:</b>	Yes

---

A software upgrade is available for S5100, SonarHub™ and StructureScan® 3D sonar modules. This is a minor release to align compatibility between the sonar modules and our Lowrance®, Simrad® and B&G® multifunction displays.

### To upgrade the software:

1. Download the software file from [www.simrad-yachting.com](http://www.simrad-yachting.com); [www.lowrance.com](http://www.lowrance.com) or [www.bandg.com](http://www.bandg.com) and save to a microSD card.
2. Insert the microSD card into the card slot on the MFD and from the home screen select Files.

3. Choose the upgrade file from the microSD card and select Upgrade.

4. Make sure the relevant module is shown and check the tick box, then select “Start upgrade”.

5. Allow the upgrade to process until the message “Rebooting Module” is displayed. Please note that it can take about 3 minutes to reboot the module after the upgrade. During this time you will see “No Source” displayed on the Sonar screen. Do not power down until the unit has re-booted and you have a valid sonar source available.
6. Please note the instructions shown are for S5100; however, the SonarHub and StructureScan 3D modules are upgraded in the same fashion by selecting their applicable software files.
