Elite-Ti 3.0 Software Update

Product:	All Lowrance Elite-Ti
Product Description:	Lowrance Elite-Ti
Software Version:	EliteTi-3.0-57.1.206
Effective Date:	August 8, 2017
Inspect/Update Current Inventory:	No

Lowrance® is pleased to announce the release of new software for Elite-Ti displays. This update brings the following feature additions and improved functionality to the Elite-Ti family:

- Audio
 - Audio* control capabilities have been added to the Elite-Ti family.
 - Audio server controls will be visible if a compatible Audio Server, such as SonicHub/SonicHub2 or compatible NMEA 2000® Radio/Fusion-Link™ Radio is connected to the NMEA 2000® network
- Control Bar
 - Located on the left side of the screen, the new control bar provides quick onscreen access to Trolling Motor*, Audio* and Power-Pole controls.
- Software Improvements
 - Screenshot files are now named using the Date and Time. The new file name format is “Screenshot_2017-07-06_05.01.12.png”. The previous file naming format was “shot001.png.”
 - Added East/West identifier missing from waypoints when coordinates system is set to Degrees / Minutes / Seconds
 - False high voltage Alarms have been rectified

**These features do not apply to the Elite-5 Ti as this unit does not have NMEA 2000® capabilities.*

To download the Lowrance Elite-Ti software and to get the full software release notes for this update visit: <http://www.lowrance.com/en-US/Software-Updates/>.
